 Intensity of use: games and training Aston Villa

Project **Emirates Stadium** Built by: Hewitt Sportsturf Construction
 Club: Arsenal FC Heating: -25 cm
 Installed in: April 2006 Watering: automatic
 Country: UK Grass: seeded after Desso GrassMaster installation
 City: London 45.000 m² Desso GrassMaster pitches at the Arsenal
 Sport: Premier League football training centre (2010 - 2011)

"Stadium pitches have to put up with a lot of punishment. Desso GrassMaster is a system that strengthens the grass and protects the roots. In all aspects, it meets the high expectations of our players."

John Beattie, Stadium Manager Emirates Stadium

"We were facing an important game. In the morning, the rain fell from the sky in buckets. Even so, we played that afternoon on a dry and level field, thanks to the excellent drainage."

Paul Burgess, Head Grounds man Arsenal FC

Project **AFAS Stadion** Built by: Arcadis Regio BV
 Club: AZ Heating: -25 cm
 Installed in: June 2006 Grass: sand based sods by Hendriks Graszoden
 Country: the Netherlands Intensity of use: Games and training AZ
 City: Alkmaar 1 Desso GrassMaster training pitch (2006)
 Sport: Football

"Training and playing on the same surface is a plus for the team. Another advantage is that the playing characteristics of the surface are identical over the entire field. The team makes good use of that consistency to bring high-quality, technical football to the fans throughout the season."

Wijnand Vermeulen, Stadium Director AZ Alkmaar

Project **Galgenwaard Stadion** Built by: Agterberg BV
 Club: FC Utrecht Heating: - 22 cm
 Installed in: June 2005 Grass: sand based sods by Hendriks Graszoden

Project: **Newlands Stadium**
Club: Stormers - Ajax Cape Town
Installed in: January 2000
Country: South-Africa
City: Cape Town
Sport: Rugby, Football

Built by: Topturf
Heating: none
Grass: seeded

"We still can't believe how amazing this GrassMaster system is, we had two rugby matches, one after the other last Saturday and the field looked like it was hardly used. Desso GrassMaster really does what it claims to do. It stabilizes the field and prevents divots from forming after a heavy scrum"

Rob Wagner, Managing Director of Western Province Rugby Union

Project: **Rat Verlegh Stadium**
Club: NAC
Installed in: September 1999
Country: the Netherlands
City: Breda
Sport: Football

Built by: Heijmans - De Enk
Heating:-40 cm
Intensity of use: 50 matches of the 1st and 2nd team per season, 50 training sessions per year, especially during the winter season, pop concerts

"We have struggled two seasons with our newly built stadium field. The water logging on the field resulted in major damage on the grass. We decided to install the sand based Desso GrassMaster field. Apart from having solved the water logging problems we now also have the opportunity for training sessions by the first and second team on the Stadium field"

Roelandt Oltmans, General Director Rat Verlegh Stadium

Project: **B-Mets Stadium**
Club: Broome County Jets
AA farm club of New York Mets
Installed in: November 1998
Country: USA
City: Binghamton
Sport: Baseball, Soccer, American Football

Built by: Clark Companies
Heating: none
Grass: sand based sods

"We have carefully researched every type of natural turf reinforcement in the market today. I am certain Desso GrassMaster is absolutely the best product available".

Scott Clark, Clark Companies

Project: **Upton Park**
Club: West Ham United FC
Installed in: August 1998
Country: UK
City: London
Sport: Football

Built by: Hewitt Sports turf
Heating: -30 cm / Sub Air
Grass: seeded

"This is the 60th game of the season and the pitch looks like it has not been played on. Perhaps that's why these West Ham boys are so good"

TV commentator during Youth Cup Final

"This is the best rugby pitch in the world. Better than Twickenham, Murrayfield, and all the other stadiums I have played on around"

Kenny Logan, Wasps and Scotland Rugby International

Project: **Villa Park Stadium**
 Club: Aston Villa
 Installed in: July 1997
 Country: UK
 City: Birmingham
 Sport: Football

Built by: Hewitt Sports turf
 Heating: -40 cm / integrated
 Grass: seeded

"The extra time I get now is devoted to improving the playing surface even more, brushing the grass, an extra cut, spot fertilizing, the maintenance work is cut by a mile"

Tony Eden, Grounds man Villa Park Stadium

Project: **Galpharm Stadion**
 Club: Huddersfield Town
 Huddersfield Giants RL
 Installed in: July 1996
 Country: UK
 City: Huddersfield
 Sport: Football, Rugby

Heating: -25 cm / integrated
 Grass: washed turf

"Our experience of Desso GrassMaster was under treacherous climatic conditions when the ground was covered in snow. Given the conditions, the surface was outstanding and didn't cut up. The fact that it retained its integrity shows the benefit of such a reinforced grass system"

John Hart, Coach New Zealand Rugby Team
