PRODUCT INFO
DESSO GRASSMASTER

“Desso GrassMaster is a system that strengthens the grass and protects the roots. In all aspects, it meets the high expectations of our players”

John Beattie, Stadium Manager Emirates Stadium (Arsenal FC)

The hybrid grass system enables a technically perfect pitch in all circumstances. With Desso GrassMaster you always have a stable and durable field, regardless of stadium lay-out or weather conditions. Hence hybrid grass fits perfectly for stadiums (single and multi sports), training centres, tournaments and multi-functional venues.

Combining nature and technology

- 100 % natural pitch reinforced by
- 20 million artificial fibres
 - designed & produced inhouse
 - injected by computer controlled machines
 - 20 cm deep, in a grid of 2x2 cm
 - 43000 km of artificial fibres
 - natural roots intertwine with artificial fibres

Benefits of a hybrid grass system

- Same playing characteristics of a perfect natural grass pitch
- Increased durability: up to 3 – 4 times more playing hours compared to standard natural grass pitch
- Tackles all weather conditions
- No loss of face for the club: always a green and even field without mud pools or divots
- Easy maintenance: no need for reurfing, less repair time
- Smart investment: durable, long term solution
- Ideal for the modern sports venue: fits a tight schedule of different sports (matches and training sessions) and events, all on the same pitch
- Optimal drainage
